

move

Sustainability

Replaces conventional diesel generators. Generate energy with a smokeless and quiet system, independent from fossil fuels.

Freedom

Move is a backup system for power cuts and to power isolated off grid needs.

Economy

Reduces maintenance costs and cuts the need for an installation and fuel. **Never pay for energy again.**

Reliability

Move will be available whenever you need it, just turn it on and plug your appliances.

Commitment

Be a part of the change. Our solutions are an example of practicality and efficiency in the application of sustainability in a creative way.

Wide array of applications

You can use move in your home, business or industry, and take it with you to power your mobile needs.
