Nemoi

Sustainability

Operates off-grid to generate **renewable energy**.

Freedom

Reach new locations, taking power to new and remote installations.

Economy

Reduce your monthly bill, you can even go off-grid. **You will never pay for energy again.**

Reliability

The system accumulates energy and you can use it in those days when the wind did not blow. **You will always have available power.**

Commitment

Be a part of the change. Our solutions are an example of **practicality and efficiency** in the application of sustainability in a creative way.

Reciclability

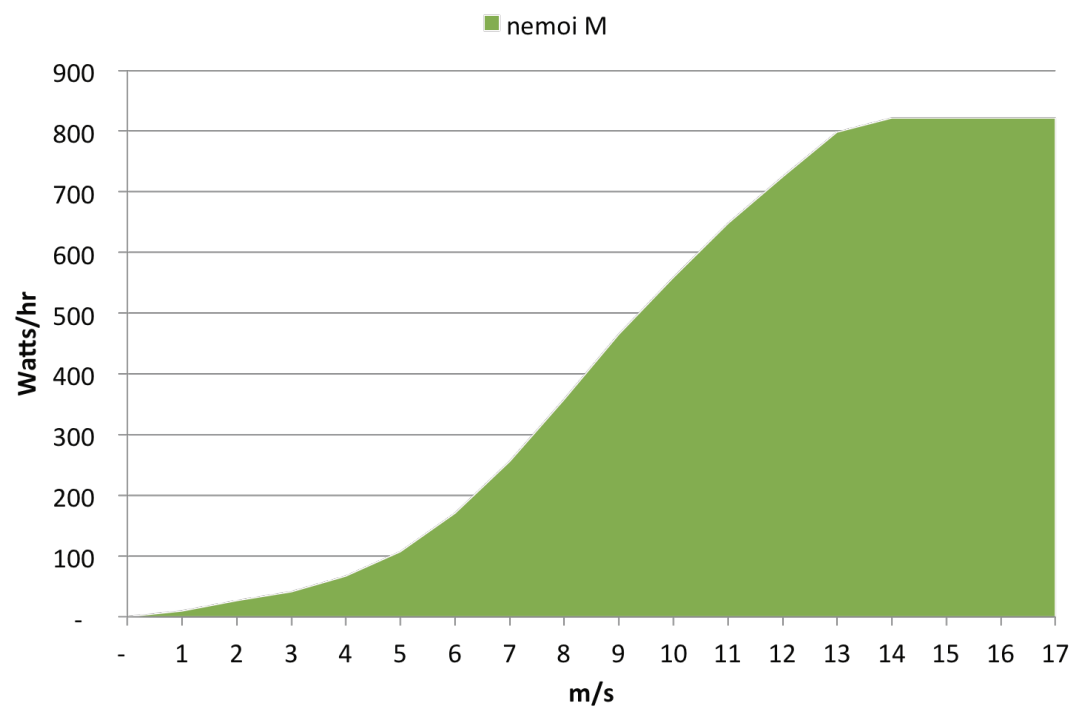

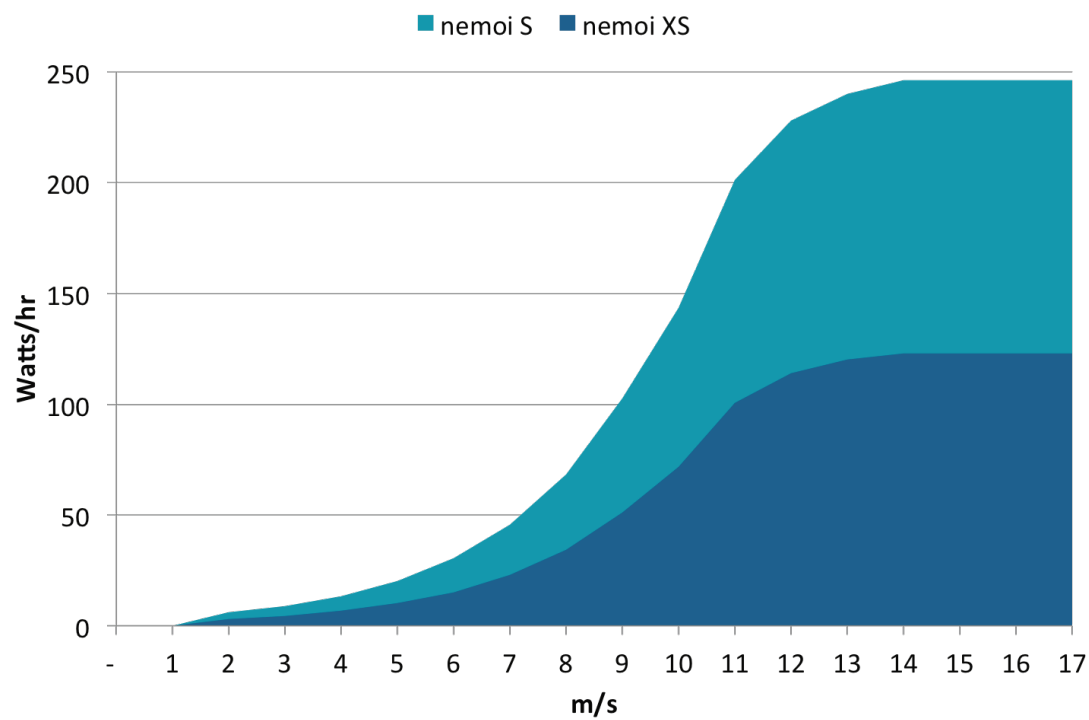

We all contribute to the future, that is why our turbine is **recyclable**.
